

BUSINESS REPORT

Date: **8th September 2026**

Business Reference: **BFS00049**

About the Business:

Established Interior Design & Manufacturing Business

An established interior design and manufacturing business, with in-house production, offers buyers the opportunity to acquire a well-known operation serving both residential and leisure-sector clients. With decades of industry presence and a reputation for delivering quality, custom-made solutions, the business

provides a strong platform for a hands-on owner looking to earn an income from a proven and respected enterprise.

A key advantage of this business is its ability to manage projects from concept to installation. All products are manufactured in-house and professionally installed, allowing for quality control and efficient service delivery throughout the process.

The business generates income from custom-made furniture, curtains, blinds and a range of fabric-based solutions. Its client base extends across residential customers as well as specialist sectors including guest accommodation establishments, retirement facilities, holiday resorts and housing developments.

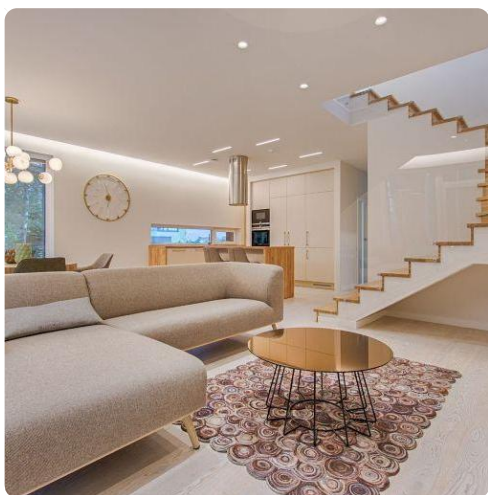

Further growth can be achieved through expanding digital marketing initiatives, increasing relationships with developers and construction professionals, and targeting additional commercial projects. The growing demand for customised interior solutions presents opportunities to broaden market reach while leveraging existing expertise and infrastructure.

This opportunity is ideal for a buyer seeking an established business with proven systems, valuable equipment and diverse revenue streams. The combination of manufacturing and design services creates a strong competitive advantage and provides flexibility to service multiple market sectors.

Businesses with established reputations, in-house production capabilities and significant equipment value rarely become available. Enquire today for more information and to explore whether this opportunity aligns with your business ownership ambitions.

The price includes machines and equipment of more than R 700 000 and excludes VAT.
