Business Report

Fully describe the business's activities?

The business has been offering high quality tombstones, at the most affordable prices in South Africa, to grieving family members for over fifteen years. Being privately owned it is very much a value driven company and strive to treat their customers with compassion and understanding.

How does the business operate on a daily basis?

Shop opens 6 days a week at 8am.

Interested customers are shown the various stones and are guided through the process of purchasing a stone. Once full payment is received, the stone is ordered from the factory who then delivers and fits the stone at the clients given location on an agreed date.

Lay-buys are accepted but stone is only ordered once full payment is received.

What Advertising/Marketing is carried out?

Flyers, word of mouth and limited on-line marketing.

What competition exists?

There are other granite tombstone suppliers in the area but this product is unique and offers a greater range.

Increased marketing and exposure - similar areas/markets exist within close proximity. "Pop up" stores and activations can increase the footprint here. The shop did something similar in Nkhandla which proved to be a successful exercise.
