

BUSINESS REPORT

Date: **6th December 2025**

Business Reference: **37267**

About the Business:

Service precision CNC machining facility, with CNC milling and turning capabilities

This business has four CNC lathes, five CNC machine centers, two conventional lathes, turret mills, tapping & drilling machines and two cut-off saws as well as a press-brake. Various other small machines complement these, to make this business a fully functional engineering facility. They are focused on small and medium production ie. 10 up to 2000 components.
