Date: **12th May 2024**

Business Reference: **BFS10834**

About the Business:

Profitable Engineering Business

This well-established and profitable engineering business specializes in manufacturing innovative Spray Machines tailored primarily for the Citrus Industry which can also be used on Spray Applications of other types of Fruit Trees as well. With nearly three decades of expertise, this company has successfully served clients across South Africa and has supplied a Client in Zimbabwe as well. This Company has great scope

with good marketing to expand into the African Continent.

The company manufactures a device that has been a game-changer in the agricultural citrus industry, delivering substantial cost savings to farmers in this sector. By streamlining processes and conserving resources, including labour, chemicals, fertilizers, water, and diesel, their solution has earned widespread acclaim among farmers.

This unique, profitable engineering business venture is now on the market, offering an exciting prospect for mechanical engineers and/or qualified fitters and turners. Why not step into a thriving community and contribute your skills to a household brand with almost 30 years of trade history? The growth potential is immense, with growth opportunities in national and international markets.

A background in design will be advantageous, but if you're practically minded, you'll quickly grasp the intricacies of this business. The current owner is committed to ensuring a seamless handover and transition, staying on for an extended period to facilitate a smooth knowledge transfer.

Whether you're a business owner looking to expand your offerings to the farming community or an individual seeking a secure and fulfilling lifestyle away from the hustle and bustle of the city, this opportunity is tailor-made for you. Contact us now to discover more about this exceptional business and how you can be a part of its continued success!
