

BUSINESS REPORT

Date: **5th June 2025**

Business Reference: **BFS10834**

About the Business:

Invest in a Thriving Agri-Tech Legacy

This profitable engineering business, with nearly 30 years of experience, specializes in manufacturing innovative spray machines for the agricultural industry, with applications for citrus, macadamia and other fruit trees as well. Known for its cost-saving benefits, the company's devices reduce labor, chemical, water, and fuel usage, making them highly valued among South African farmers and even clients in

Zimbabwe.

This venture would ideally suit individuals with a background in mechanical engineering or qualified fitters and turners who can appreciate the technical expertise and innovation driving the business. With a well-established brand, it presents an exciting growth and expansion opportunity in both local and international markets.

The current owner is dedicated to ensuring a smooth transition, providing support for an extended period. This venture suits anyone interested in a fulfilling lifestyle and stable business.

This is a rare opportunity to acquire a reputable engineering business with solid growth prospects. Contact us to learn more about this exceptional opportunity and become a key player in Africa's agricultural innovation.
