Business Report

Fully describe the business's activities?

This restaurant/pub is well known for their excellent wood fired pizza's and the additional meal offerings, as well as the cozy setting, close to the major Garden Route towns, in a stunning rural village in the hills above Wilderness.

The business offers an on-site and off-site liquor license which will be available to the buyer, and have an in-house off sales section.

The current operator wishes to move out of the business and it would be an ideal time for a fresh look and offering by an experienced operator (ideally a couple).

Trading hours can be increased.

How does the business operate on a daily basis?

The business is managed by one of the partners who is also a chef, and handles the general management. There are a team of 4 employees who handle the kitchen and front of house.

What Advertising/Marketing is carried out?

There are Face Book and other local initiatives that are in place.

What competition exists?

There a few other venues within this small rural village who offer liquor and meals, but each has their own specific offerings and settings.

How could the profitability of the business be improved?

If the business is managed by an experienced restaurateur (Ideally a couple), who enjoy offering good fare and the socialising; and who don't mind weekend work; then this business will show significant growth. Currently the business trades periodically on Sundays, although this is a really good time to offer a full days trade.

How involved is the Owner in running the business?

The managing partner is a Chef, and is prepared to stay on by arrangement for a limited period to facilitate a structured hand over.

The second partner has other business interests and is not involved operationally with this business.

When does the current lease end?

The business and property are owned by the Sellers, and as such they prepared to sell either the restaurant aspect with liquor licenses and majority of the assets, but they will also consider selling off the property lock, stock and barrel if desired.

Strengths?

- A rural setting within the hills close to the mountains and close to coastal towns, very popular with both tourist and locals especially as a weekend visiting venue. The town also has a significant resident base who also enjoy the venue and their offering.

- Full on-site and off-site liquor licenses selling a range from premium spirits to house wines, supported by the locals.

- The property lends itself to entrepreneurial activities by a strong and motivated team who can exploit the true potential of the location... ideally a couple with ideas, and the drive to make them happen.

Weaknesses?

Predominately reliant upon incoming visitors as opposed to the locals.

The business will benefit significantly by having the Owners living on-site or close by, but not too remote.

Opportunities?

Ideally the business could benefit by being revitalised inside with new theme, livery and even a new menu, showing that there is a new team, new menu and new decor, with emphasis on weekend activities. There are numerous initiatives that experienced restaurateurs with a creative flare and who are sociable. Other initiatives such as health meals, on-site baking, milkshakes and smoothies, Happy Hour promotions, eat as much pizza as you like promotions etc etc
Winter afternoon/ evening specials to attract the locals.

Threats?

There are no known threats to the premises or the environment.
The only significant threat would be if the new Owner did not play an active role in the daily management of the business or did not do more promotional activities and initiatives.

What is the reason for the sale?

The Seller and his partner are not looking at being in this environment or business type in the long term. He has other business interests and is not a restaurateur and his partner also feels that she would like to move on in the not too distant future.
