Products and Services

The heart of the TAB offering is our business-owner peer advisory boards. In a candid and confidential setting, entrepreneurs & business owners from non-competing companies across diverse industries meet monthly to discuss the opportunities, challenges, and issues they each face in their businesses and market – think of this as their own group of trusted advisers. These business owners, whom we refer to as Board Members, gather the collective experience of their peers around the table to explore possibilities for increased productivity and profitability. Being among peers also mean that Members hold each other accountable for their commitments and execution of strategies. Our peer advisory boards address two main issues for business owners that we have witnessed of more than 3 decades: Loneliness in decision-making lacking accountability. In addition to the peer boards, we meet monthly with each Member in a 1-1 meeting, call it private coaching or strategic & execution, to laser focus on their business goals, thereby enhancing planning and focus. We call this approach “Change by Design”. Our proprietary Business Builder’s Blueprint™ is an online system that provides our Members unrestricted access to their business’ operating rhythm, 24/7.

Over time we have added additional offerings that are available to our Members through TAB Franchise partners that literally touches all aspects needed by business owners to lead their businesses better – Further to peer advisory boards and 1-1 private coaching, we added StratPro™ strategic leadership development for senior management, Hi-MAP (High Impact Manager Acceleration Programme) for mid-level managers and even those owners new to leading teams; lately, we also offer our Blueprint as a fully online offering for start-up and small-scale businesses.

The Alternative Board helps Members run their businesses more strategically and this leads more fulfilling lives, which is what our Franchise Opportunity is all about and what our Franchisees work to achieving.

Our model is built around four core pillars each offering a unique value proposition:

• PEER ADVISORY BOARDS

Monthly confidential meeting of non-competitive business owners to discuss real-life opportunities, challenges and topics that will individually enable each member to strategically run their business. This is a fundamental component missing for many business owners – trusted advisors, which is in our case non-competing fellow business owners than can give unfiltered and unbiased advice on the better running of a business.

• PRIVATE COACHING

Monthly one-to-one strategic and execution meeting, in a private coaching setting, where we guide business owners on planning and running their businesses towards achieving their personal and company goals. With a compelling personal vision all of us are much more inclined to take the decisions that will get us there.

• PROPRIETARY SOFTWARE & TOOLS

TAB has developed the Business Builder’s Blueprint™ as a proprietary online platform – call it an entrepreneurial MRI. It not only helps plan the business but monitors progress on execution thereof on ongoing basis, measures delivery and ensures enterprises are run more strategically, instead of the idea-of-the-week. Additionally, within the Blueprint, TAB Connect links each of our Members to around 5,000 other business owners globally to access their inputs on specific topics that our members individually may experience.

• TEAM DEVELOPMENT

TAB has developed two bespoke solutions to ensure that the business owner is supported by an aligned team. Firstly, StratPro™ is TAB’s strategic business transformation process for owners and their senior management teams. This is where strategy meets productivity. StratPro consists of multiple workshops and planning session, exclusive to the leadership team of a business. Through StratPro we align the vision, communication, planning and execution of business strategy, thereby aligning the management team to work

towards a common goal and leading the business to improved productivity and greater profitability. Secondly, in addition to StratPro TAB ensures that the next-level leaders in the organisation – junior managers, frontline-supervisors and first-time leaders of teams – are equipped to effectively lead their reports. High-Impact Manager Accelerator Programme (Hi-MAP) is implemented along 4 clear paths of development for these next-level managers to help them and their teams be more productive.

Further to these core pillars, TAB also provides business owners with Strategic Consulting, Training and Professional Networking. TAB Franchise Owners advises business owners beyond coaching; we clarify their personal visions and align their businesses to achieve those goals. We change the operating rhythm of the business.

Together with a TAB Franchise Owner's initial training, we guide them through their marketing planning, using our Integrated Member Acquisition Programme ("IMAP") whereby we help them craft their marketing strategy for success. This is started from immediately after training whereby we spend an intensive 16-week period of guiding and support to new TAB Franchise Owners to launch their TAB franchise, and is monitored monthly for at least the first 12 months to ensure our new Franchise Owners remain dedicated to their own planning and success. In addition, TAB requires our Franchise Owners to participate in their own peer boards as well as encourage them to participate in monthly touchpoints across the global community (webinars, community calls, learning sessions) where international best practice is shared amongst our more than 400 global TAB Franchise Owners.
