## Fully describe the business's activities?

Located in the leafy suburbs of the north. The store is a bespoke pizza & pasta restaurant drawing on elements of being authentically modern Italian, yet affordable & unpretentious enough to appeal to all echelons of society. The store is emphasized by strict adherence to fresh quality ingredients, cutting-edge recipes, top-notch service levels & striking surroundings.

## How does the business operate on a daily basis?

The restaurant typically starts its day by preparing fresh ingredients and dough. The kitchen staff begins early to ensure everything is ready for the day's service. As the restaurant opens, the front-of-house team sets up the dining area and takes reservations if applicable. Throughout the day, orders are taken, and the kitchen prepares and cooks pizzas and pasta dishes to order. The waitstaff delivers food to customers while maintaining a welcoming atmosphere. Meanwhile, kitchen staff manage inventory, restock supplies, and ensure a clean and organized workspace. The restaurant remains busy during peak dining hours, and the staff works together to provide quality service. At the end of the day, closing duties include cleaning, restocking, and preparing for the next day's operations, ensuring a smooth and efficient routine.
