Strengths?

1. Long standing and successful.
2. Unique patented products.
3. International footprint with a proven track record of well over ten years.
4. Easy to run business with huge upscaling potential.
5. Established Brand with "easy to add" new innovative product lines.
6. Low running costs
7. Export licenses and shipping accounts in place with UPS and FEDEX as preferred partners.

Weaknesses?

1. The new owner must be ready to file new patents in South Africa by early 2025
2. The new owner should ideally have existing premises to accommodate the business and daily operations.
3. The new owner must be ready to file new patents in South Africa by early 2025.
4. The cost of local and international PCT filing applications could be expensive.
5. The new owner should approach the DTI for funding to absorb the costs for patents, etc.
6. New product moulds must be manufactured by late 2025 to develop new products.

Opportunities?

1. The alternative for the new owner could be to rent a suitable premises that could accommodate for upscaling and future expansion. New and exiting products can be added regularly or based on trends and client demand.

Threats?

As with all successful product lines in the global market this business has also encounter Chinese counterfeiters in the markets since 2007, our original products reputation for its quality and durability has stood the test of time against these substandard badly imitated counterfeit versions. The owner does take legal action via reporting such products in the relevant territories from time to time.

What is the reason for the sale?

The current owner has a medical condition that wil leave her unable to continue managing the business in due course.
