

BUSINESS REPORT

Date: **15th February 2026**

Business Reference: **BFS00094**

About the Business:

Precision Engineering/ Manufacturing Business

This is highly reputable and profitable precision engineering firm that has operated for over three decades, specializing in high-tolerance component production for SA' s automotive and industrial sectors. With a robust reputation for quality and a dependable long-term client base- including major OEM's and Tier 1 suppliers.

The business offers a complete suite of services including the design, manufacture and maintenance of precision tools/jigs and fixtures.

Besides above production and supply, the business also has an internal apprenticeship programme, strong team of experienced qualified staff and a substantial asset base and sound financial basis.

Growth can be added to the business by leveraging localization demand and global supply chain disruptions, expand into high-potential verticals, renewable energy, defence and rail, improve operational margins, etc.

Financials:

Annual average turnover/revenue R57 million per annum.

NP (EBITDA) R1,88 million for first quarter of 2025.
