Business Report

Background and History

This business was established in 2008 after the owner resigned from a well known auto brand brand and started his own business. He obtained 2 units in an industrial area and divided his business in a car parts business and a service centre. Although he started off servicing only the specific brand vehicles, he has since expanded his services and do from basic servicing a car to complete overhauls of engines, gearboxes etc. His clientelle base is wide and he has a huge database of loyal clients. The only reason for selling is that he is on retirement age and his wife is not healthy and needs full time assistance
