## Products and Services

We Clean Bins does Wheelie Bin and Bin Area pressure wash cleaning for residential and commercial customers. As we have a pressure washing system, we can manage a higher volume of cleaning and do the cleaning that would otherwise not be possible for those cleaning manually. Pressure washing cleaning allows us to work faster and still be effective. It also gives us a competitive edge, as we can handle jobs that would otherwise be difficult for companies that do not have pressure washing equipment.
