# Business Report

## Background and History

This business forms part of the fastest growing sector of the liquor industry ie the gin sector

What makes this business unique is that it offers more than the selling of gin, but also includes training, tasting, workshops, etc

This is all done in a consumer friendly centre which is adjacent to a well known frequently visited market by both local/national/international visitors

The existing owners wish to still have a % share in the business (the % share can be agreed upon)- the selling price will thus be determined according to the shares bought/sold

The existing owners would like to sublease a portion of the gin centre for the production of their own product (not competition for the gin)- this product will be sold via the gin centre

## Products and Services
