About the Business:

Fast Food Franchise Opportunity: Asset Sale

Looking to enter the quick-service restaurant industry with a well-established, popular brand? This is a unique opportunity to purchase a fully-equipped fast food container, ideal for relocation to a site of your choice.

This offering is an asset-only sale, meaning you will acquire the physical container and all equipment, not an existing operating business with current turnover. This presents a low-barrier entry into the fast food sector with a proven and successful national brand.

Key Features

Selling Price: R400,000.

Fully Equipped: The sale includes a custom-built, branded food container with a complete kitchen setup. This includes grillers, fryers, fridges, freezers, counters, a point-of-sale system, internal branding, signage, menu boards, and an extraction system.

No Royalties: This specific container unit is not subject to monthly royalty fees under the current agreement.

Relocation Flexibility: The container can be moved to any new location, subject to head office approval. The buyer is responsible for selecting and securing the new site.

Significant Savings: The estimated replacement cost for a new container, including franchise fees and setup, could be well over R500,000–R600,000. This offering provides a significant savings and a fast route to ownership.

About the Brand

The franchise is one of South Africa's most beloved fast food brands, established in 1997 and operating over 100 outlets across the country and in neighboring countries. The menu is known for its gourmet hotdogs, fresh-cut fries, and other creative options that appeal to a broad market, from students to working professionals and families. The flexible menu allows for quick preparation and high turnover, making it suitable for both high-traffic street locations and food courts.
