Customers come from all over KZN, including Ixopo. Some customers collect their purchases whilst others have their purchases delivered to them. Some customers elect to have their purchases processed on site and this paid-for service is provided by an on-site butchery, which is a tenant on the property.

## What Advertising/Marketing is carried out?

No advertising or marketing is carried out. The business has built a great reputation, so their customers are their best promoters.

## What competition exists?

This business was the first livestock trading company in the area but over time there has been some competition, albeit on a much smaller scale.

## How could the profitability of the business be improved?

There is plenty of space to accommodate additional livestock for sale, which should translate into extra sales and profitability.
