## Franchise Details

Doctor's TV Ads started out as a small family-run business in 2004. Within three years this innovative concept had grown to become a very exciting and successful enterprise ready for expansion and perfect for franchising. Subsequently, 26 outlets have been registered.

In 2010, Doctor's TV Ads also received the Newcomer Franchisor of the Year award; an honour it shares with previous winners, the likes of which include Sasol, Vodacom, Mugg & Bean, Roman's Pizza, Hot Dog Café and Multiserv. Doctor's TV Ads is a dynamic concept of advertising which is affordable for the local small business community in most towns and city suburbs.

The name Doctor's TV Ads expresses precisely what we do. We utilise large format LCD screens in reception areas of doctors' consultation rooms where a captive audience can be exposed to a continuous stream of selected advertising material on behalf of our customers. The success of the concept lies in its simplicity. Doctors generally have busy schedules, and this may result in patients waiting for long period at a time, usually more than 40 minutes.

An LCD monitor with interesting and informative advertisements provides a welcome distraction. Advertising slots are each 20 seconds long and are screened in cycles of 20 minutes. This gives the advertiser exposure of his service or product a least twice every 40 minutes to waiting patients.

This franchise is driven by the consistent delivery of quality service to each customer. As a franchisee, you will receive a set franchise model and will adhere to specific, proven operating systems, not only in your own but also in the interest of all the other franchisees. You will receive sufficient support from the franchisor, but you are ultimately responsible for the success of your business. Your commitment, drive and will to succeed will determine the rewards.
