Machinery Included

- **Pneumatic Door Press (25-Door Capacity)** Used for pressing multiple doors simultaneously during assembly. Pneumatic operation ensures even pressure distribution across the entire door surface. Ideal for speeding up large production batches while maintaining quality.
- **Altendorf F90 Panel Saw** A precision German-engineered sliding table saw used for cutting wood panels to exact specifications. Highly accurate and durable essential for clean, straight cuts in the early stage of door fabrication.
- **Fur Men Brushes (400mm/500mm)** Handheld brushes used for even application of glue across surfaces. Provides control and precision during assembly without excessive glue waste.
- **Weinig Moulder (4-Head)** Heavy-duty moulder used for profiling and shaping timber components. Four cutting heads allow for complex shaping and high-speed processing. Ideal for creating detailed mouldings, trims, or customised edges on door frames and panels.
- **Induna Industrial Air Compressor** Powers the pneumatic systems across the workshop, including the door press and other tools. Reliable, high-capacity compressor ensuring consistent performance and uninterrupted workflow.
- **Cordless Drills, Circular Saws, Planers, and Palm Routers** Essential handheld tools used throughout the production process for detailed work and customisation. Supports precision cutting, smoothing, and detailed shaping of door components.

Digital Presence & ECommerce Channels

Palanka Brothers isn't just a traditional manufacturer, it's a modern, forward-thinking business with a solid digital footprint and access to powerful online sales platforms. This opens up multiple revenue streams and allows for national and international exposure.
