# Business Report

## Background and History

We have been involved in the logging industry in Northland-New Zealand since 2009.

## Products and Services

We transport logs from the forests to domestic mills but the majority is for export and goes to Marsden Point which is a deep sea port in Northland.

## Assets

We have 4 fully operational trucks on the road and one spare truck for busy times and back up when we have repairs and/or services to other trucks.

## Employees

Currently we have 4 permanent drivers working for us and the owner backs up when needed.

## Financials and Forecasts

Asking price: NZ\$ 2,200,000.00

Median Yearly Turnover over the last 3 financial years is: NZ\$ 1,600,000.00

Median Yearly Net Surplus Before Tax and Depreciation over the last 3 financial years is: NZ\$ 310,000.00

## Reason for Sale

We are getting to an age now that we have to consider retirement and have no successor in the family.

## Conclusion

The Logging Industry is huge in New Zealand and there's plenty of opportunities for the right people to improve and expend the business which we're not going to engage in due to our age.

## Agents Comments

When uying a business people can enter New Zealand on a "Business (Entrepreneur) Visa" which allows the owners to work in their own business.

The bonus is that, when the owners require housing, the business can buy property as well which wouldn't be possible on a Work Visa where you can't buy property for the first two years.

## Investment Opportunity

The asking price is: NZ\$ 2,200,000 which is for plant and goodwill combined.
