Business Report

Fully describe the business's activities?

This Business operates within a well-known Mall in the Western Cape, based at one of the main entrances close to a large retailer.

Their key focus is the cutting of keys.

They outsource dry cleaning, number plates, and trophy engraving.

The owner has a Joint Venture with a shoe repairer who works in the business.

This little business will be a gem for a small-business owner willing to work the morning shift from 09:00 - 13:00. HOWEVER - the owner is willing to train someone to take over his shift for 1 month. He will then also consult if needed for another 2 months.

The person with whom he has the joint venture for shoe repairs takes the afternoon shift and closes the shop. In exchange, they have a salary rebate system where the shop receives R 4000 from her per month, but all income from the shoes is for her benefit.

One can quickly train another staff member so that, as a buyer/owner, you don't have to work a shift.

How does the business operate on a daily basis?

The owner opens in the mornings and at 13:00 the other partner comes in to work until closing.

The owner purchases all the material needed.

What Advertising/Marketing is carried out?

The Mall does marketing but the Business Owner not.

What competition exists?

The closest other centre offering these services is about 6 km away.

How could the profitability of the business be improved?

Enlarge synergetic products.

How involved is the Owner in running the business?

As the owner has no other focus areas, he only involves himself because he wants to increase his profits.

When does the current lease end?

October 2027
