About the Business:

9 Bedroom House in Southern Suburbs for Sale with GR4 and BG1 Zoning - Cape Town

This property falls within the development sphere in the southern suburbs that leans itself ideally for student housing- the universities and nearby colleges have a dire shortage of housing which was now also addressed in the SONA 2026 by the State President

This property offers two semi detached 3 bedroom dwellings together with a substantial 4- bedroom double storey home with a separate flatlet. Add to this that it falls within a historic framework area, thus presenting outstanding potential for mixed use, residential income, or future redevelopment

General Business 1 allows for business or mixed use whilst General Residential 4 supports higher density residential use

With excellent exposure , strong demand for these zoned properties adding the heritage character, this will be any investor/developer's dream
