About the Business:

Well Established Training Centre

Positioned in a well-established small town along the sought-after Garden Route in the Western Cape, South Africa. This well established training centre offers a rare opportunity to acquire a fully operational, income-generating education business with strong foundations and recurring revenue already in place.

The business has built a solid reputation by providing structured, guided learning programmes tailored to both individuals entering the workforce and companies investing in staff development and upskilling. Students attend scheduled sessions where they work through professionally developed course material under the guidance of a dedicated facilitator, ensuring accountability, support, and consistent learner progress.

A major strength of this well established training centre is its turnkey nature. An experienced administrative assistant already manages the daily operations, including client liaison, student onboarding, reception, scheduling, and ongoing marketing activities. This allows for smooth operational continuity and provides a new owner with an already functioning support structure from day one.

The client base is diverse and reliable, consisting of matric graduates preparing for employment opportunities, as well as businesses that enrol staff members for training and compliance purposes. This creates a steady flow of both individual and corporate clients throughout the year.

Importantly, the business already benefits from active students paying via monthly debit order, meaning a new owner steps into an immediate income stream from the first month of ownership. The owner also develops much of the training material internally, which assists in controlling costs and maintaining quality standards.

This opportunity is ideally suited to an owner-operator or investor seeking a stable service-based business with established systems, recurring revenue, and growth potential within the education and skills development sector. While the current owner remains involved in facilitation by choice, the business is already fully staffed and operational. A tech-savvy owner who is comfortable assisting with facilitation when required would be particularly well positioned to maximise the opportunity.

Selling Price Excludes VAT.
