Summary

AUTOMOTIVE ENGINEERING MACHINERY AUCTION

25 June 2026 at 11:00 **40 Asset(s)**

Aldes Auctions. under the direction of auctioneer Peet Brits. presents a highly specialised Automotive Engineering Machinery Auction taking place on **25 June 2026 at 1O Chopin Street, Klarinet, Witbank**, **commencing at 11:00**. This is a rare and compelling opportunity to acquire a comprehensive collection of 40 lots comprising professional-grade engine reconditioning machinery, precision engineering equipment, industrial tooling, workshop consumables and associated assets - representing a virtually complete engine rebuilding and reconditioning facility offered to the open market.

Among the standout offerings is an extensive range of precision engine reconditioning machines, including crankshaft grinding machines, cylinder boring and honing equipment, line boring machines, connecting rod resizing machinery and a Serdi SW800 Cylinder Head Assembly Station with tooling - assets that form the backbone of any serious engine rebuilding operation. Bidders will also find a significant Major Engine Rebuilder Stockholding comprising crankshafts, engine blocks, cylinder heads, camshafts, connecting rods, starter motors and alternators across both diesel and petrol applications, alongside a selection of industrial diesel engines including Cummins and Perkins units. Complementing the core machinery is a 150kVA mobile silent diesel generator on trailer, industrial welding equipment, an air compressor, gas cylinders, steel work tables and supporting workshop infrastructure.

Prospective buyers are strongly encouraged to attend the on-site viewing prior to the auction date to inspect assets firsthand and assess their suitability. For further information, viewing arrangements or registration details, please contact Aides Auctions directly. Do not miss this exceptional opportunity to secure high-quality automotive engineering equipment at public auction.
